## INVITATION

The organizing committee sincerely invites you and your colleagues to participate in the national workshop on Small Angle X-ray Scattering organized jointly by the Department of SAIF/CIL/UCIM/USIC Panjab University, Chandigarh and Anton Paar, Gurgaon during 6-8 Nov 2017.

## PANJAB UNIVERSITY

Panjab University has a long tradition of pursuing excellence in teaching and research in humanities, science and technology. Its faculty includes some of the most distinguished scientists and academicians. Over the years, the reputation of Panjab University has grown into one of the innovative teaching, research and community outreach.

## DEPARTMENT OF SAIF/CIL/UCIM/USIC

Sophisticated Analytical Instrumentation Facility (SAIF), formerly known as RSIC at Panjab University was inceptioned in the earlier years of the 6<sup>th</sup> plan. It houses the XRD for powder samples, LC-MS, FE-SEM, SEM, TEM, WD-XRF, 400 MHz FT-NMR Spectra, SAXS, Rheometer, UV-VIS, FTIR, GCMS and Elemental analysis (CHNS-O). The complete facilities of UCIM, CIL and SAIF are working in unison in the service of research and also for imparting practical training to the young researcher through workshops. The Centre also undertakes the design, fabrication and repair of electronic instruments

required by students and teachers from the University and Others.

## ANTON PAAR

Anton Paar India Pvt. Ltd Gurgaon is a subsidiary of Anton Paar GmbH, Austria. Anton Paar is developing and producing premium-quality measuring as well as analysis instruments for various applications including industrial and research. Product range comprises Viscometers, Instruments for Characterization, SAXS Systems, Polarimeters and more. Recently, Anton Paar installed state of art Small Angle X-ray Scattering (SAXS) instrument equipped with 2-D Detector at SAIF, Panjab University which will certainly benefit the research scholars.

## OBJECTIVE OF THE WORKSHOP

The primary objective of this national workshop (NSAXS-2017) is to impart sufficient knowledge on the principles and applications of SAXS to sensitize and stimulate the young minds of research scholars and faculties. The deliberations will explore the major instrumental methods for chemical and material analysis to understand their structural aspects. Moreover, an extensive hands-on training, practical exercises, data interpretation and troubleshooting will also be provided.

## ACCOMMODATION

Due to limited room availability, we advise you to make your reservation as early as possible. Accommodation is subject to availability
